

BUILDING A SPECTACULAR SLIDE SHOW

IMAGES ARE CLICKABLE LINKS TO ADDITIONAL TUTORIALS

➤ Material Needed:

- Picture files for your show
- Potential background images, your own, or,
 - Consider using <https://unsplash.com/>

➤ Steps:

1. Create unique background
 - a) Import multiple background photos into new presentation
 - b) Use either DESIGN IDEAS or CROP to make photo fill the slide page
 - c) Use photo editing techniques (Transparency, Artistic Effect) to create different background "looks" to try on in Step #2-B
 - d) Save presentation.
Save again AS JPG or PNG individual files
2. Create main photo album presentation
 - a) Use Insert PHOTO ALBUM.
One Photo Per Page with Simple Frame, Black or White
 - b) Use Format Background to audition various potential backgrounds created in Step 1
 - c) Pick the one you like and APPLY TO ALL
3. Layout each slide photo creatively
 - a) Move & Resize
 - b) Consider adding a Frame
 - c) Combine multiple photos per page and use 1) Design Ideas or 2) Picture Layout
4. Add slide transitions
 - a) Try different types of transition or stick to "REVEAL"
 - b) Consider Morph "Magic" for Ken Burns Effects
5. Add Music and Transition Rehearse timing if needed
6. Present
 - a) Present the show off laptop
 - Need help with multiple Monitors?
 - b) Or, Save As Export as a Video File
 - Consider Full HD 1080p, as this is most common display projection
